4. This screen presents you with two methods of activating your iPad. You can either connect to a Wi-Fi Network to activate or alternatively you can connect directly to an internet enabled computer with the data/charger cable that comes with your iPad. For the purpose of this guide a Wi-Fi Network will be chosen.

Location Services

Enable Location Services >

Disable Location Services >

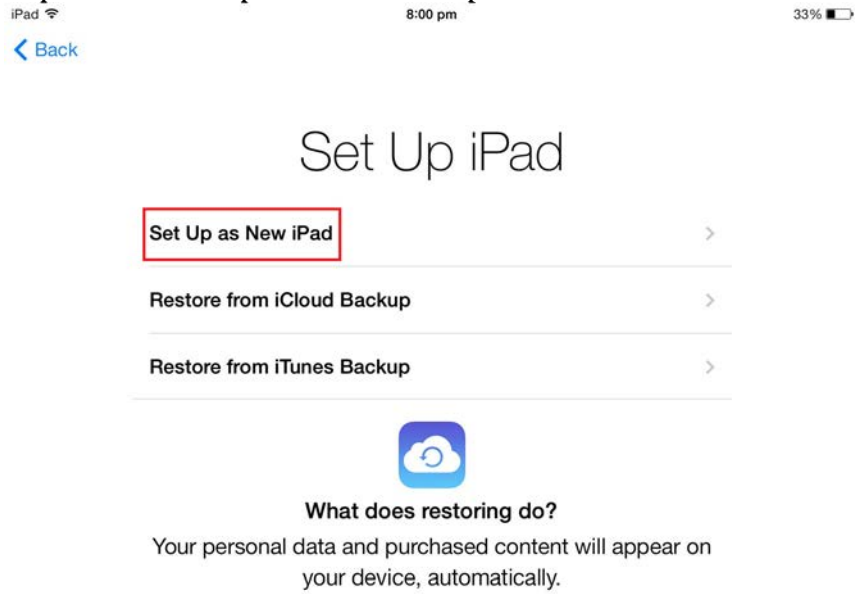

What is Location Services?

Location Services allows Maps and other apps to gather and use data indicating your approximate location.

[About Location Services](#)

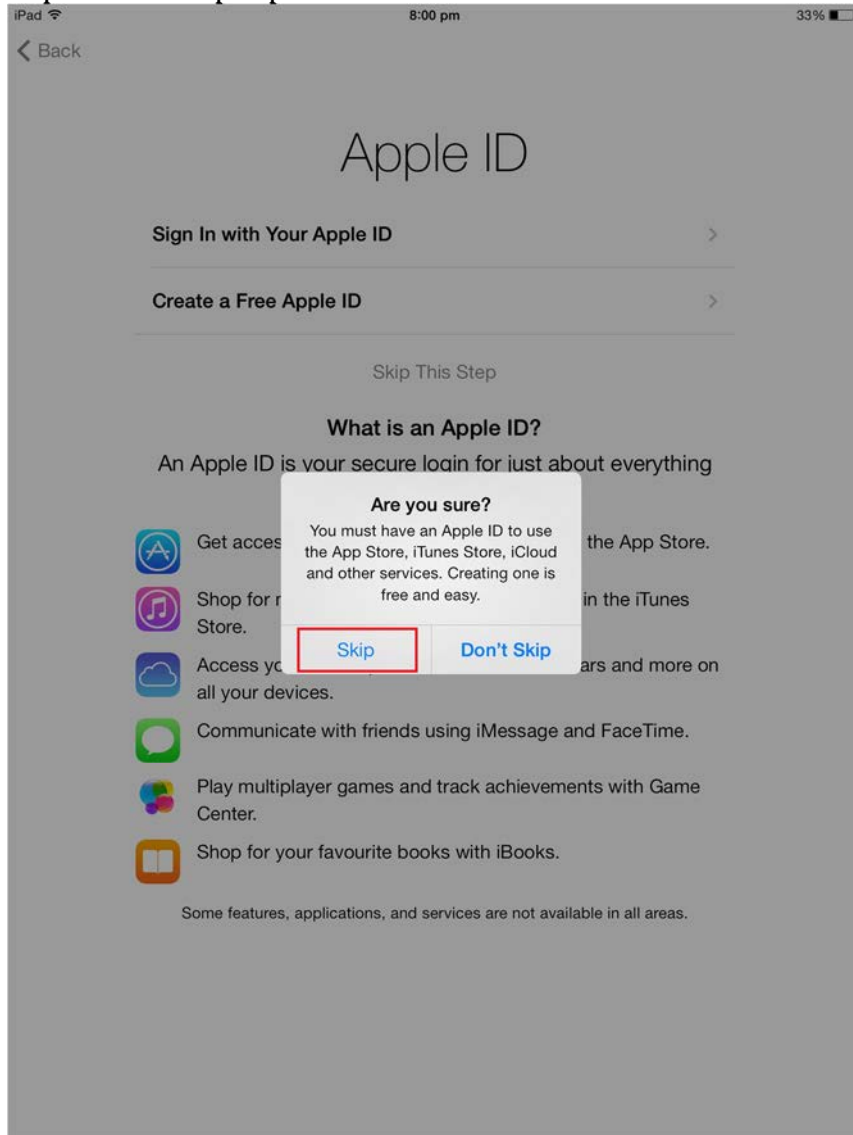

8. Tap on the “Set Up as New iPad” option.

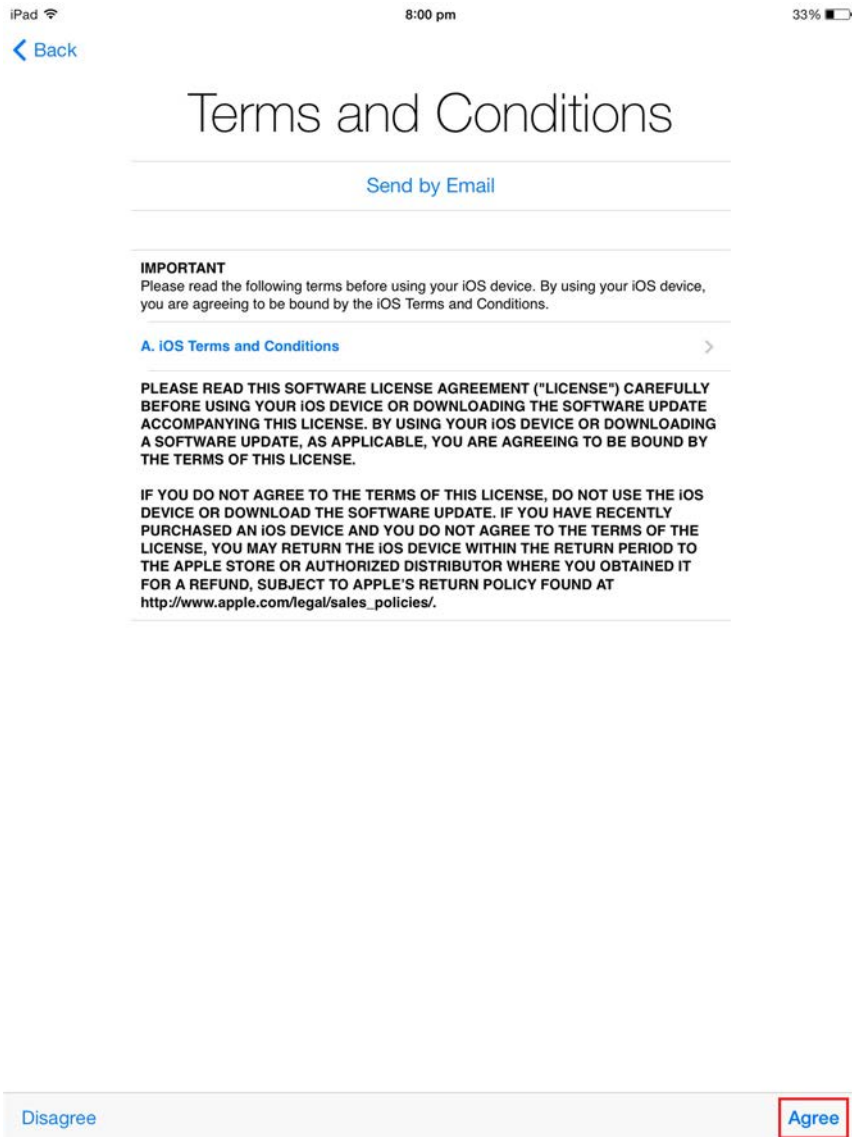

9. Tap on the “Skip This Step” option. (Refer to “Create Apple Account Guide) to create an Apple ID without adding a credit card.

10. Tap on the “Skip” option.

11. Read the Terms and Conditions and if you accept them tap on the “Agree” option.

13. You can choose whether to add a passcode to your device or not. For the purpose of this guide “Don’t Add Passcode” will be chosen. If you have chosen to add a passcode skip to step 15.
